PPE Accessories

Production, Assembly and Ready Stock

Factory photos help overseas buyers verify supply capability, packaging readiness and long-term cooperation potential.

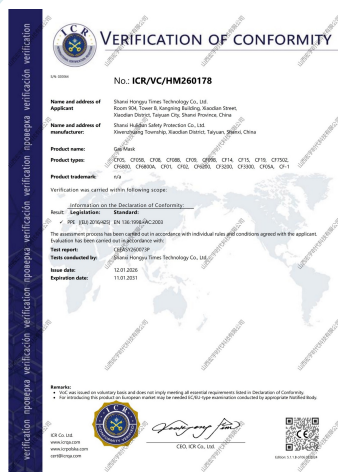

Certification & Test Reports

Documents for Buyer Review

Available documentation includes CE verification, product test reports and management system certificates. Product-specific applicability should be confirmed by exact model before quotation or project submission.

CE Verification of Conformity

CF6200 Product Test Report

Filter Cartridge Test Report

ISO 9001 Quality Management Certificate

Specialized Equipment QMS Certificate

Buyer Document Pack

CE / Conformity files

Product test reports

Quality management certificates

Packing list & carton details

Model-specific documents on request

Quality Assurance Workflow

The catalog presents document samples for customer confidence. The latest complete files can be provided to qualified buyers for project review and shipment documentation preparation.

01

Model & Usage Confirmation

Confirm exact respirator, filter or PPE model according to buyer use scenario.

02

Document Matching

Check applicable certification, test report and company qualification documents.

03

Packaging Confirmation

Confirm box size, carton size, carton mark, label and private-label needs.

04

Order & Inspection

Arrange production, packing check and shipment according to agreed requirements.

Available document categories

CE verification

Product certification report

Product test report

ISO 9001 QMS

Specialized equipment QMS

Note: document validity and product applicability should be checked before formal quotation, tender or customs submission.

Target Markets & Applications

Product selection and sales materials are structured for distributors, industrial buyers and OEM partners in the Middle East and Southeast Asia.

Middle East

Safety distribution, industrial PPE programs, emergency preparedness, maintenance and chemical protection supply channels.

Southeast Asia

Manufacturing, painting, construction support, chemical handling and general PPE wholesale channels.

Painting & Spraying

Respirators, cartridges and replacement filters

Chemical Handling

Full-face mask, canister and chemical protective suit

Emergency Response

Escape hood, full-face respirator and protective PPE

Dust & Workshop

Half-face respirator and particulate filter options

Distributor Bundles

Mask + filter + bag + packaging combinations

A Complete Safety Product Family

Buyers can select individual products or build complete sets: mask, filter cartridge, hose, bag, protective clothing and complementary PPE

FULL FACE RESPIRATORS

14

items

Full-coverage respiratory protection for industrial, chemical and emergency-use scenarios.

HALF FACE RESPIRATORS

4

items

Compact respirator options for daily PPE programs and distributor product bundles.

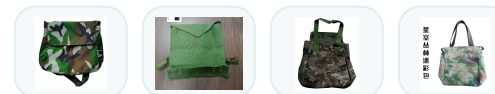

FILTERS & RESPIRATOR ACCESSORIES

16

items

Filter cartridges, canisters, bags and replacement accessories for complete product matching.

CHEMICAL PROTECTIVE CLOTHING

7

items

Protective suit options for chemical handling, emergency response and industrial PPE programs.

PPE ACCESSORIES & FIRE SAFETY

8

items

Boot covers, gloves, capes, breathing apparatus and fire safety accessories.

Faster Inquiry to Quotation

The following trade information can be used as a standard reference for foreign trade communication. Final quotation depends on model, quantity, packaging, customization and destination.

200 pcs

MOQ

Standard minimum order quantity

5-7 days

Stock Lead Time

For products with available stock

10-15 days

Customized Lead Time

Logo / color box / private label

Case by case

Mold Development

New mold or special production to be calculated separately

Recommended inquiry information

01 Model / Photos

Send product model or screenshot.

02 Quantity

Confirm quantity and target price range.

03 Package

Confirm color box, carton marks and accessories.

04 Documents

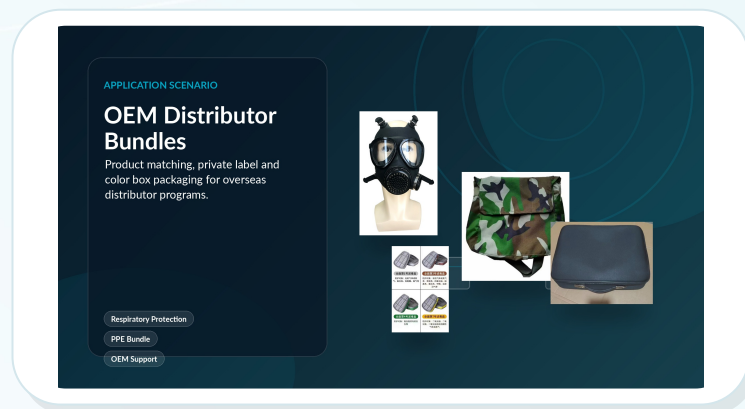

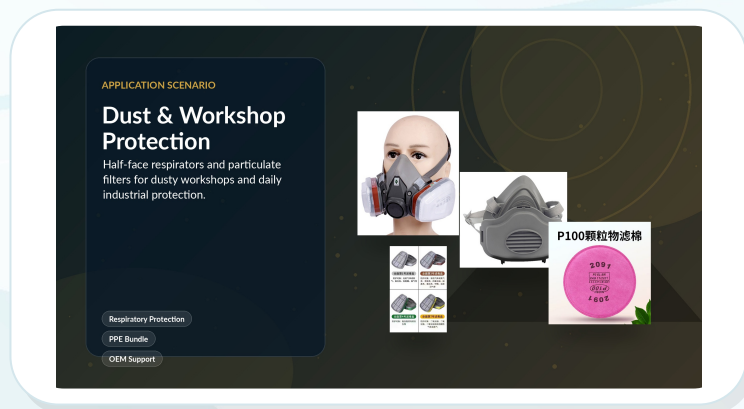

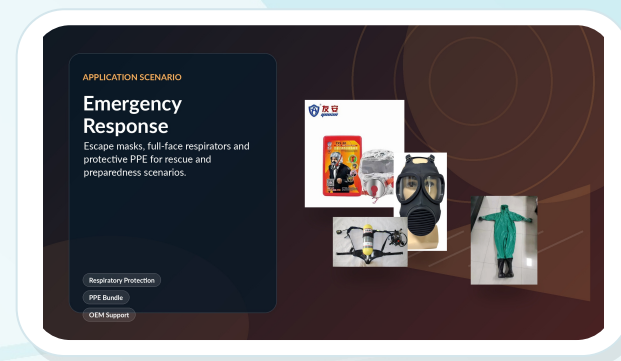

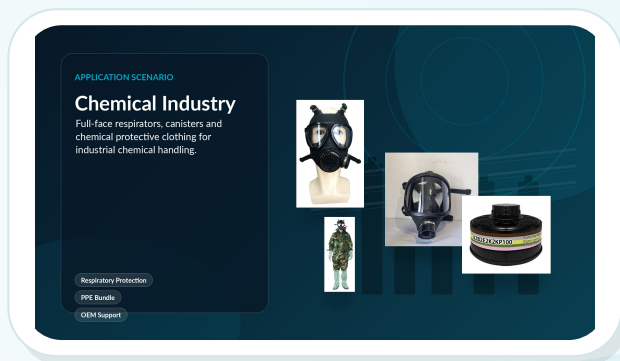

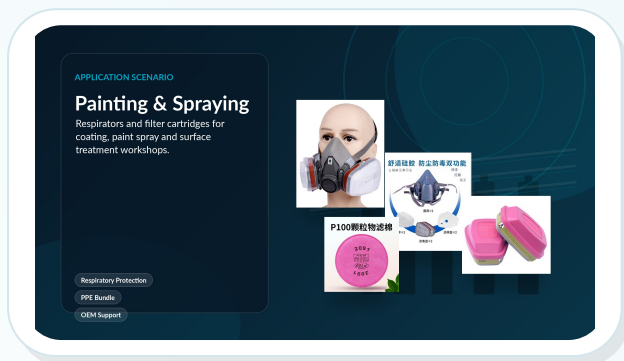

Confirm certification or report needs.

05 Shipping

Confirm trade term and destination.

Scene-Based Product Positioning

Use the following application scenarios to guide overseas buyers from product browsing to practical selection.
